

INSURANCE

Vision Insurance: Vision insurance plans (if it is a plan this office participates with) are only filed when there is NO medical diagnosis made during the examination.

Medical Insurance: Medical insurance is filed for patients with a medical diagnosis, such as glaucoma, cataract, infection, injury or surgery of the eye.

Private Pay: If you do not have vision/medical insurance, do not wish to file your vision/medical insurance, or we do not participate with your vision/medical insurance, full payment is expected at time of service.

The following is a list of insurance plans we participate with.

If you are covered by any of these insurance plans, please put a check by the appropriate carrier and give the receptionist your insurance ID card.
